| Dhaka, Bangladesh

PROFESSIONAL SUMMARY

Results-driven IT Executive with 3 years + of hands-on experience in IT support, network administration, CCTV surveillance, and system maintenance. Currently pursuing a Diploma in Computer Science & Technology while actively building full-stack web development skills using the MERN stack. Certified in MikroTik Routing & Security with OLT. Adept at diagnosing complex technical issues, managing LAN infrastructure, and delivering responsive web applications. Seeking to leverage a strong technical foundation to contribute to forward-looking IT teams.

WORK EXPERIENCE

Shodagor Express Limited

January 2023 – Present

IT Executive

- Diagnose, repair, and maintain office computer hardware, peripherals, and workstation components to ensure minimal downtime.
- Configure and manage Local Area Network (LAN) setup and internet connectivity using MikroTik router.
- Design, install, and troubleshoot IP and analog CCTV surveillance systems (DVR/NVR) for workplace security.
- Provide prompt IT technical support to staff, resolving software, OS configuration, printer, IP phone, and biometric device issues.
- Manage subnetting and bandwidth distribution across office IT infrastructure.

EDUCATION

Diploma in Computer Science & Technology

2022 – 2026

BCI Engineering Institute

CERTIFICATIONS

MikroTik Routing & Security With OLT |

Jul 2024 – Oct 2024

Flash IT Limited

Core Skills: Advanced Routing, protocols, bandwidth management, firewall security, and OLT configuration..

Complete Web Development (MERN Stack) |

2025 – 2026

Programming Hero

Full-stack training: React, Node.js, Express.js, MongoDB, Tailwind CSS, HTML5, JavaScript, Vite.

TECHNICAL SKILLS

Infrastructure & Networking

Computer Hardware Troubleshooting ●●●●●

Diagnostics, repair, and optimization of office PCs, printers, IP phones, biometric devices, and essential peripherals.

Network Administration (LAN) ●●●●○

Subnetting, IP address management (IPv4), DHCP configuration, and local network optimization.

MikroTik Router Configuration ●●●●○

Static/dynamic routing, bandwidth control (QoS), firewall rules, and user management.

CCTV Installation & Maintenance ●●●●○

End-to-end setup, wiring, and configuration of DVR/NVR for both IP and analog surveillance systems.

IT Technical Support ●●●●●

Prompt troubleshooting of workplace hardware/software issues, system configuration, and user end-support.

Operating Systems & Tools

Windows OS ●●●●●

Enterprise administration, OS installation, system update management, and registry troubleshooting.

Linux OS (Basic) ●●●○○

Essential terminal commands, environment setup, directory navigation, and file system management.

Web Development

React.js ●●●○○

Component-based UI development, state management, and modern frontend tooling.

Node.js & Express.js ●●●○○

Server-side programming, environment configuration, and scalable RESTful API development.

MongoDB ●●●○○

NoSQL database design, CRUD operations, and MERN stack data integration.

Tailwind CSS & HTML5 ●●●●○

Responsive UI design, semantic markup, and cross-browser stylesheet optimization.

JavaScript (ES6+) ●●●○○

Vanilla JS core concepts, asynchronous programming, and DOM manipulation.

Soft Skills

Problem Solving ●●●●●

Team Collaboration ●●●●○

Technical Documentation ●●●○○

PROJECTS

Online Learning Hub

Interactive online education platform built with React and Tailwind CSS featuring course listings, user dashboards, and responsive design.

 online-learning-platform-08.netlify.app

Swift Cart — E-Commerce UI

High-performance e-commerce frontend using vanilla JavaScript and Tailwind CSS with cart functionality and product filtering.

 swift-cart-e.netlify.app

Hero App Gallery — App Store Showcase

Dynamic app store platform featuring category-based layouts, advanced search functionality, and application detail pages.
